

PBI Doors | Who We Are

Welcome to PBI Stile and Rail, Louver, and Glass Doors!

We thank you and assure you PBI is committed to providing an ease of doing business both you and your customers will enjoy. Our plants have added to our facility space, equipment, and personnel to meet the needs of our current and potential customers in 2022!

PBI Door is ready to grow with you and we are committed to taking care of your business as you grow!

WHO WE ARE | PBI Doors in the U.S. is a combination of two fine manufacturing teams located just north of Montreal. PBI Doors is essentially Masonite's former Portes Belhumeur and Portes Milette. We chose to go to market under the PBI name due to the familiarity of Jean and his team to U.S. customers. You will have one customer service team, one order, one shipment, and one invoice regardless of the type of door we offer. Every door you purchase from PBI is produced by our plants. The focus is on ease of doing business.

CUSTOMER SERVICE | Our focus is on prompt customer service! It is our intention to provide you with confirming quotes within a maximum of 4 hours and 95%+ of the time, within the hour. PBI can be reached at the following: Toll free number: 1-844-PBI-DOOR (724-3667); Quotes: Email PBI at quotes@pbidoors.com; Orders/General Questions: Email PBI at sales@pbidoors.com.

SERVICE PROPOSITION FOR PBI DOORS | Primed MDF Door orders placed by close of business Monday can ship the following Friday (two weeks out our door!) either prepaid or you can opt to pay the freight charge for less than minimum prepaid quantities. Your shipments arrive Wednesday or Thursday the following week. (Example: order placed Monday will deliver in 12-13 business days) PBI Doors recognizes there are times when you must provide rush service for customers. The plant will attempt to accommodate these requests when possible. Veneer Door (Birch, Maple, Oak, and Pine) orders are currently experiencing longer lead-times as the import door supply is currently very erratic. This is putting pressure on domestic manufacturers. For PBI our capacity is based on our ability to produce veneer panels. Please check with the plant for current lead-times on veneer door products.

Quick Reference of our Full Line:
